

# NEUROSCIENCE & SOCIETY

Neuroscience and Responsibility

## CALL FOR ABSTRACTS

Abstract submissions are now open for presentations at the 2019 Neuroscience & Society Meeting.

Abstracts are invited from a wide range of relevant disciplines, including those working in the fields of ethics, law, science, social science, medicine and other clinical professions, engineering, philosophy, and public policy in Australia and internationally. Abstracts of an empirical, legal, and philosophical nature are welcomed. Investigators at all career stages are encouraged to submit one or more abstracts.

Presentations are welcomed on any topic related to neuroethics or neurolaw. Particular consideration will be given to those addressing the key conference theme of 'Neuroscience and Responsibility'. This includes, but is not limited to:

- Criminal responsibility
- Moral responsibility
- Neurointerventions in criminal contexts
- Responsible research and innovation
- Design and the environment
- Individual and collective responsibility
- Risk and responsibility

## EVENT DETAILS

**DATE:** 3-4 December 2019

**LOCATION:** Monash University Law Chambers,  
Melbourne, Australia

## SUBMITTING AN ABSTRACT

Abstracts are due by **24 July 2019** and are to be submitted via email to [john.gardner@monash.edu](mailto:john.gardner@monash.edu). Abstracts will be reviewed by the conference organising committee and submitters notified of the outcome by **31 August 2019**.

**Neuroscience and Society 2019** is an initiative of the Australian Neuroethics Network and is made possible by the generous support of the:

- Law, Health and Wellbeing Group, Monash University Faculty of Law
- ARC Centre of Excellence for Integrative Brain Function
- Turner Institute for Brain and Mental Health, Monash University
